

A diagram showing a vertical stack of 9 circles. The circles are arranged in a single column, with the bottom circle resting on a base. The base is a rectangular box divided into two sections, labeled 'D' and 'U'. A vertical line extends from the top of the stack down to the base. The circles are light beige with a blue outline. To the right of the circles is a vertical column of 9 empty rectangular boxes, each corresponding to a circle. Further to the right are several horizontal lines for writing.

A diagram showing a vertical stack of 10 circles. The circles are arranged in a single column, with the bottom circle resting on a base. The base is a rectangular box divided into two sections, labeled 'D' and 'U'. A vertical line extends from the top of the stack down to the base. The circles are light beige with a blue outline. To the right of the circles is a vertical column of 10 empty rectangular boxes, each corresponding to a circle. Further to the right are several horizontal lines for writing.

A vertical abacus with a stem and a base. The base is divided into two sections labeled 'D' and 'U'. The stem has 10 beads. To the right is a grid of 10 rows, each with a small square box and two horizontal lines for writing.

A vertical abacus with a stem and a base. The base is divided into two sections labeled 'D' and 'U'. The stem has 10 beads. To the right is a grid of 10 rows, each with a small square box and two horizontal lines for writing.
