PIRÁMIDES ABN

Este material está pensado para trabajar las sumas de forma correlativa y en graduación creciente para atender a la diversidad del alumnado.

Se tienen en cuenta todos los intereses, motivaciones y estilos de aprendizaje.

Partimos del nivel más básico y vamos incrementando el grado de dificultad hasta llegar a niveles más avanzados y complejos.

Cada pirámide comienza trabajándose de forma manipulativa (con dinero, palillos...) y se asocia a problemas significativos de la vida diaria.

Ponemos en práctica las fases de la tabla de la suma.

Utilizamos estrategias de redondeo y compensación.

Practicamos estrategias de cálculo cuando hay y cuando no hay rebasamiento en las unidades y en las decenas.

Cada alumno/a es consciente del nivel de cálculo en el que se encuentra y de las estrategias que va poniendo en práctica.

Si es necesario puede autocorregirse y autoevaluarse.

EL ALUMNO/A CUENTA CON LAS SOLUCIONES Y LAS PÁGINAS NUMERADAS PARA FACILITAR LA AUTONOMÍA EN LA CONSTRUCCIÓN DE SUS APRENDIZAJES .
