A 4x6 grid of 24 numbered boxes for a memory game. The boxes are arranged in four rows and six columns. Each box contains a small illustration of a traditional Korean candle (Norigae) or incense stick (Dongbaek). The illustrations show different arrangements of the sticks, such as single sticks, pairs, or groups of three, some with red ribbons. The boxes are numbered from 1 to 24 in a sequence that likely represents a memory pattern. The background of the grid is a light beige color.
